Wholesale Price List

FALL 1908

HENRY B. CHASE, President
ROBERT C. CHASE, Treasurer
CHARLES F. CHASE, Secretary

TO THE TRADE:

The stock offered herein is from the two nurseries combined—Alabama Nursery Company and Chase Nursery Company—and is probably the most complete list ever offered from Huntsville. Never before have we been in such fine shape to handle your orders. We have the assortment, quantity, facilities and organization.

The new addition to our brick storage house at Chase Station, just finished, gives us one of the finest nursery warehouses in the world. This warehouse has side tracks from two lines of railway and is so situated that both freight and express shipments are loaded direct to the car.

We have had a good growing season, our stock is smooth and clean. We call your particular attention to our list of shrubbery, field grown roses, nut trees and shade trees.

Your orders will be appreciated. We solicit your want lists.

Yours very truly,

CHASE NURSERY COMPANY

Huntsville, Ala., Sept. 1, 1908

WE PAY THE FREIGHT

To the following Distributing Points:

ST. LOUIS, OR HANNIBAL, MO.
ROCHESTER, N. Y.
PHILADELPHIA, PA.
CINCINNATI, OHIO.

We make up car load shipments to above named cities, and all orders that reach us in time to include will be DELIVERED FREE OF FREIGHT CHARGES TO SUCH POINTS except that we do not guaratee car lots for **all** points in the **Fall Season**—may have several cars for St. Louis, none for Cincinnati, one or more to Rochester, none to Philadelphia, or *vice versa*.

We reserve the right to include **Fall Shipments** in cars to any point above named nearest you to which we may be shipping in car lots.

We Guarantee Free Freight to Any Point Named on All Orders for Spring Shipment.

CHASE NURSERY COMPANY.

Wholesale Price List

FALL 1908

Chase Nursery Company

INCORPORATED

HUNTSVILLE, : : ALABAMA

This List is intended for the Wholesale Trade only. If it reaches people not entitled to such prices, we will thank any Nurseryman or Florist to advise us, so that our mailing list may be corrected.

We do not employ retail agents. We do not pack dealers orders on our grounds and do not authorize dealers to use our name.

Shipments

Please state how you want shipments made, whether by freight or express, also route. Where no instructions are given, we will ship as we think best serves purchaser's interests without assuming responsibility. THE RISK, AND COST OF TRANSPORTATION BELONG TO PURCHASER.

Terms and Credit

Usual terms to parties of known responsibility. We will not accept orders until we believe the buyer is good for the account. Cash before shipment required from parties unknown to us or references with sufficient time for investigation before shipment.

Prices

We quote prices per 10, per 100, and per 1000 as our stock allows and will supply nurserymen and dealers at prices named regardless of the size of order except in cases of long assorted lists of small quantities when an additional charge will be made to cover the extra labor involved. Prices are Subject to Market Changes.

Grades and Grading

We grade LIBERALLY by Caliper and height. When both are specified, Caliper measure governs, but we are careful to see that stock is UNIFORM throughout. Our rule is "WHEN IN DOUBT PUT IT IN THE LOWER GRADE."

All stock is graded and bunched in our storages houses where we have water in abundance. Stock is handled from field to these buildings under large taupaulins and roots kept moist until boxed.

Liability and Claims

We are not liable for injury to stock from frost, hail, fire or other causes beyond our control, and book all orders with this understanding. While we use every means at our command to secure prompt delivery, we are not liable for delays in transit; our responsibility ends upon delivery in good order to Railway Company. Remedy for loss must lie between the buyer and the Railway Company, but we will gladly render all the aid we can. Any other claims must be made immediately after receipt of stock.

Guarantee of Genuineness

We exercise the greatest care to keep our varieties PURE and TRUE to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid; but it is mutually agreed between the purchaser and ourselves, that we shall not be liable for any amount greater than the original purchase price.

Substitution

We do not substitute, unless instructed to do so, AND THEN LABEL TRUE TO NAME.

Code Words—Telegraphic Orders

When more than one grade is listed, a code word is used. While this code is designed particularly for telegraphic orders, it should be more generally used when placing mail orders—so much easier and quicker to simply write the one word which gives us all the information regarding the GRADE of stock wanted. Much expense can be saved in telegraphic orders by using these Code words in connection with Nurserymen's Telegraphic Code, copy of which we will mail upon request.

Boxing

Charges as low as possible for well made boxes, paper lined:

30 x 30 inch heads, 7 to 9 feet in length	$2.00
24 x 30 inch heads, 7 to 9 feet in length	1.75
24 x 24 inch heads; 7 to 9 feet in length	1.50
18 x 24 inch heads, 7 to 9 feet in length	1.25
18 x 18 inch heads, 7 to 9 feet in length	1.00
15 x 15 inch heads, 7 to 9 feet in length	.75
12 x 12 inch heads, 7 to 9 feet in length	.50

On orders for Roses, Small Fruits, etc., we can frequently use dry goods cases or shoe boxes at lower cost and shall endeavor at all times to make lowest possible charges.

Bales 25 cents to $1.50 according to size.

References

For those who do not know us, we refer to any bank or business house in Huntsville, the Commercial Agencies and the leading Nurserymen of the United States.

Imported Fruit Tree Seedlings

We buy these stocks in France from reliable, experienced growers. Shipments will reach us in December and January, and we solicit your orders for the following:

Cherry, Mahaleb, 5 to 8 mm.
Cherry, Mahaleb, 3 to 5 mm.
Quince, Angers, 5 to 7 mm.
Pear, branched, 7 to 12 mm.
Pear, branched, 5 to 7 mm.
Pear, branched, 3 to 5 mm.

Prices on application.

APPLE SEEDLINGS—American Grown

No. 1, $\frac{3}{16}$ and up, straight roots.
No. 2, $\frac{2}{16}$ to $\frac{3}{16}$, straight roots.

Prices on application.

We also have contracts for Import on Assorted Evergreens, Assorted Shrubs Ornamental Trees, Climbing Vines, etc. Prices and list later.

GRAPES

NOTE:—The one-year vines offered below have made a fine growth this year and will run stronger than usual for that age. We believe they will prove more satisfactory than light two-year vines.

18 to 24 inches, whips and few branches	*Alarm*	20 00
12 to 18 inches, " " " "	*Alert*	17 50

We make a specialty of this plant. Our stock this Season consists ot 100,000 of the following desirable sorts. Notice the low prices on small sizes,—fine stuff for lining out.

Amplissima, double rose
Anemonaeflorus, dble. dark red
Ardens, double violet
Boule de Feu, dble. bright red
Coelestis, single, blue
Carneus plenus, semi-dble. rose
Duch. de Brabant, dble. dark red
Elegantissima, semi-dble. white
Grandiflora Superba, semi-dble. rosy-white
Jeanne de Arc, double pure white
Lady Stanley, semi-double; pink
Monstrosus, dble. white
Pompon Rouge, double red
Pulcherrima, semi-dble.; pink and white
Rubis, single, deep red
Rubra, plena, double red
Speciosa, double; fleshy-white
Totus Albus, single white

EVERGREENS

PRIVET

		Per 1000
CALIFORNIA PRIVET, 2 to 3 feet, well branched	*Prank*	$ 30 00
" 2 to 3 feet, lightly branched	*Prattle*	20 00
" 18 to 24 inches, well branched	*Prawn*	20 00
" 18 to 24 inches, lightly branched	*Preach*	15 00
" 12 to 18 inches, well branched	*Press*	12 50
" Transplanting	*Pride*	8 00

Well branched grades carry 4 to 8 stems. Lightly branched grades carry 2 and 3 stems. Transplanting grade carries single stems of all heights and plants under 12 inches.

A WORD IN EXPLANATION

We use every precaution to keep our stock true to name. In putting in new varieties we strive to "Get the Goods" regardless of price. We have paid $ 3.00 per thousand for peach buds when other parties have offered us the same varieties for 50 cts. per thousand—because we felt sure the $ 3.00 man was right—while the 50 cts. man MIGHT BE.

Beside California Privet we are growing three other distinct varieties in marketable quantities. Our stock of these varieties came from some of the best houses in the trade at home and abroad, but we find that these Privets are known by various names in different localities, and after spending considerable time and money trying to get them named so we KNOW they are right,—we give it up—and submit the following. If you know the plant you want, we believe you can select it from our description.

AMOOR RIVER PRIVET — NORTH — Resembles California in habit of growth. Tardily deciduous here, where California is practically an evergreen. By some called Upright Ibota.		
" " 4 to 6 feet, well bran	*Pulp*	$ 100 00
" " 3 to 4 feet, well bran	*Puff*	85 00
" " 2 to 3 feet, well bran	*Pump*	50 00
" " 18–24 ins. lightly bran	*Pulse*	30 00
AMOOR RIVER PRIVET—SOUTH—Well known all over the South under this name. An entirely different plant from the one described above. Slender and graceful in habit of growth; small leaves, evergreen.		
" " 3 to 4 feet, well bran	*Pumice*	50 00
" " 2 to 3 feet, well bran	*Punish*	30 00
IBOTA PRIVET—Very graceful, arching growth. Leaves long and narrow and drop early. This plant has been grown under this name in New England in localities where California Privet has been severely winter killed, and is regarded there as perfectly hardy.		
" 3 to 4 feet, well branched	*Puny*	85 00
" 2 to 3 feet, well branched	*Pupil*	50 00
" 18 to 24 ins. well branched	*Puppet*	30 00
" 12 to 18 ins. well branched	*Purge*	17 50

NEW AND RARE ROSES

No. 1 $15.00 per 100 No. 2 $10.00 per 100

Countess of Derby, H.T. salmon, shading into delicate peach
Debutante, hardy climber; delicate light pink
Freiherr Von Marschall, T; dark carmine, large
Killarney, H.T. brilliant pink; very large
Lady Gay, hardy climber; cherry pink, blooming in clusters
Lily Ito, climber; great profusion of small Polyantha flowers of pearly-blush color
Mme. Driout, climber, striped and shaded in bright carmine and rose
Marie Matchersky, H.T. pink
Mrs. E. G. Hill, everbloomer; outside petals coral red; inside almost pure white
Mrs. R. G. Sharman Crawford, H.P. flesh-pink, large
Richmond, H.T. scarlet; constant bloomer

ROSES

GRADES

NO. 1—Hybrid perpetuals and Climbers graded 24 to 30 inches of wood. Teas, Hybrid Teas, etc. graded 18 to 24 inches of wood. All plants stocky, well rooted, with three or more branches.

NO. 2—Hybrid Perpetuals and Climbers graded 18 to 24 inches of wood. Teas, Hybrid Teas, etc. graded 12 to 18 inches of wood. All plants stocky, well rooted, with three or more branches.

All No. 2's are extra fine for transplanting to nursery rows, a portion of them are heavy enough for retail use with many nurserymen

HARDY COMMON ROSES

We have a large stock of Baltimore Belle, Empress of China, Dorothy Perkins, Crimson Rambler, Queen of Prairie and Madam Plantier. Write for prices on thousand lots.

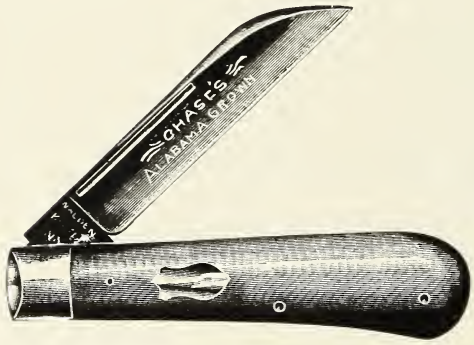
NURSERYMEN'S SUPPLIES

PROMPT SHIPMENT

KNIVES

"Chase's Alabama Grown" Knives are especially made for us by one of the great cutlery manufacturers who has a reputation for making knives of GOOD QUALITY. The blades are hand hammered from Wardlow's English steel. For many years we have used knives from this maker and have found them satisfactory.

Grafting

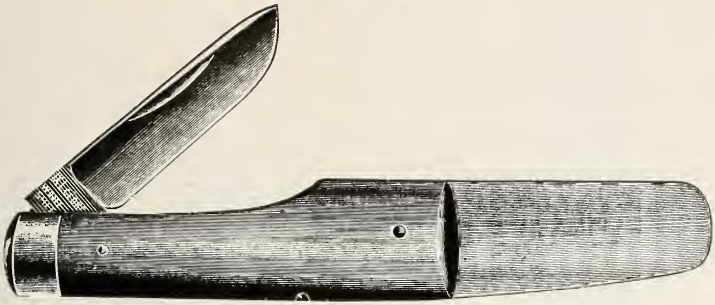


Cut ¾ Size

C. A. G. GRAFTER—Cocoa handle, pocket edition

Price each, postpaid	$ 0 25
Per dozen, freight or express	2 75
Per dozen, postpaid	3 00

Budding



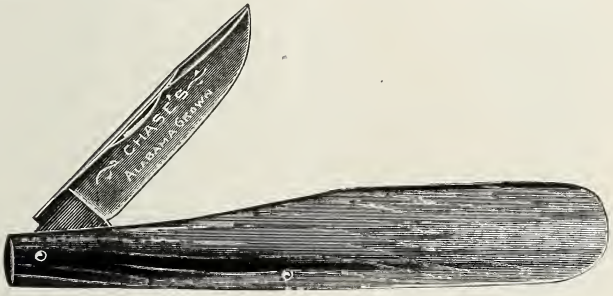
Cut ¾ Size

WOSTENHOLM'S I X L Ivory Tip—The best budding knife we know of, and strong enough for an all purpose knife.

Price each, postpaid	$ 0 75
Per dozen, freight or express	8 00
Per dozen, postpaid	8 25

CHASE'S SPECIAL, Ivory Tip—A mighty good budding knife, next to Wostenholm, it is the best ivory tipped knife we can find; in appearance almost exactly like Wostenholm's.

Price each, postpaid	$ 0 60
Per dozen, freight or express	5 75
Per dozen, postpaid	6 00



Cut ¾ Size

C. A. G. BUDDER—All wood (cocoa) handle, blade of good stuff, preferable to the stationary handle budder, in that it folds for the pocket; end of handle is made thin forming a wedge for raising the bark. Having no metal bolsters it is not strong enough to use for opening boxes or splitting kindling. Note the very low price.

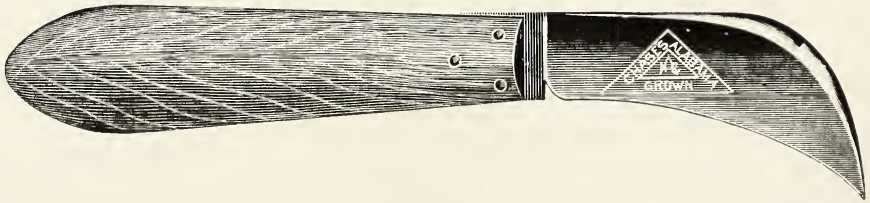
Price each, postpaid	$ 0 30
Per dozen	2 90

Budding

STATIONARY BUDDER—Note shape, size and "hang" of blade, made for budding but not as convenient for the pocket as the others.

Price each, postpaid, $ 0 25 Per dozen, freight or express, $ 2 25 Per dozen, postpaid, $ 2 50

Pruning



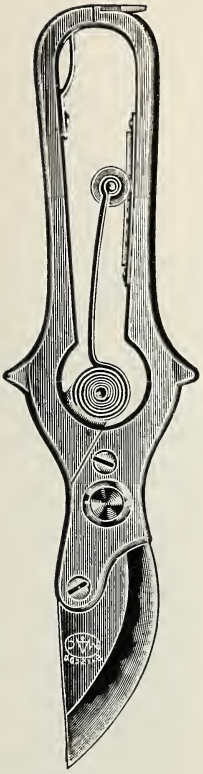
Cut ½ Size

C. A. G. PRUNER—Stationary handle, full length 8 inches, length of blade 3 inches.

Price each, postpaid, $ 0 30 Per dozen, freight or express, $ 2 75 Per dozen, postpaid, $ 3 20

Pruning Shears

For Making Cuttings for Propagation



Watch Spring, French, 8 Inch

We offer shears that make CLEAN CUTS because we think you want that kind.

A sharp knife makes the CLEANEST, BEST cut. All "soft" wood cuttings are made with a sharp knife because there is no chance for a bruise, but cuttings from hard wood can be made with shears. If the shears bruise the bark or crush the wood the cuttings have a poor chance for life. The best shears make a cut approaching a knife cut.

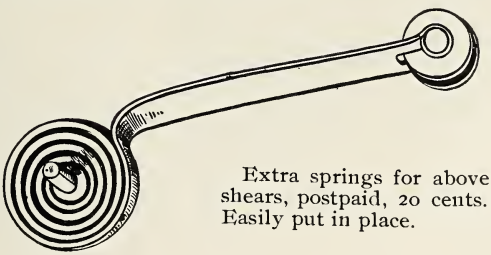
This shear makes a CLEAN CUT. The spring is quick and positive but not strong enough to tire operator. We began using this shear in 1890 and frequently have had a dozen pairs in use at one time, we thought of it as THE BEST. The one trouble, was, once in a while the spring would break and we could not find new springs nearer than France, but we now carry a stock of extra springs, price 20 cents each.

Price per pair, postpaid..... $ 1 35
Price per dozen pairs, by express or freight..... 14 50
Weight per dozen pairs, 7 lbs.

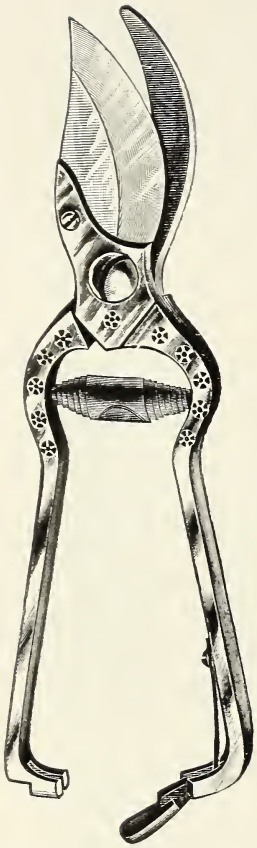
For Cutting Seedlings Back to the Bud, or for Heavy Work—Same make as above, 9 inch, extra heavy.

Price per pair, postpaid..... $ 1 70
Price per dozen pairs, by express or freight..... 17 00
Weight per dozen pairs, 11 lbs.

Makes a QUICK CLEAN CUT, strong enough for heavy work, we especially recommend this shear for "cutting back."



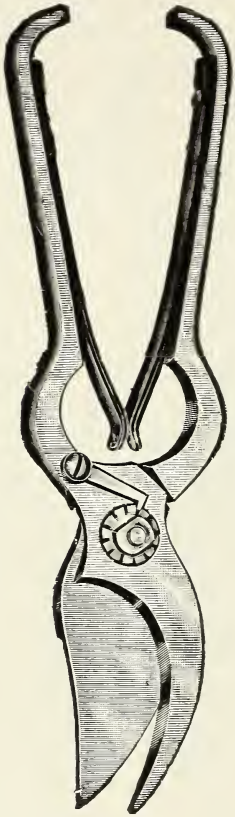
Extra springs for above shears, postpaid, 20 cents. Easily put in place.



LADIES GERMAN, 6 inch, full nickel plated. Volute spring

Price per pair, postpaid $ 0 75
Price per dozen pairs, by express or freight 8 00
Weight per dozen pairs, 2¾ lbs

Not large enough for general use, a HIGH GRADE, beautifully finished shear, large enough for use about rose bushes or shrubs in the garden, or for light work



ENGLISH MAKE

ENGLISH MAKE, 8 inch. One of the best made shears in the market; an extra blade with each; HEAVY LONG BRASS SPRINGS THAT WILL LAST AS LONG AS THE SHEARS.

Per pair, postpaid ..... $ 1 65

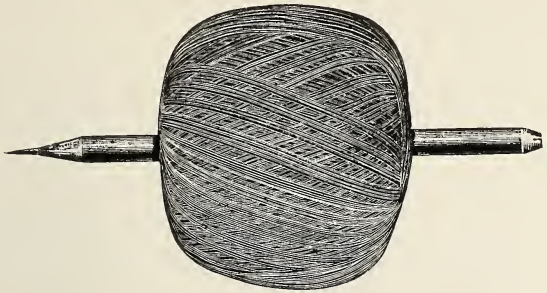
AMERICAN MAKE, 9 inch. Good cheap shears, strong, weight 17 ounces, well made. Volute steel spring.

Per pair, postpaid ..... $ 0 65

Grafting Thread

GRAFTING THREAD put up in balls, three ply, firmly twisted and *loosely wound* so that it can be *soaked in boiling wax and used from the ball.*

Price per pound, not waxed ..... $ 0 35
Same waxed ready for use, price per pound 40



This illustration shows a ball of our grafting thread with a pencil run through the hole in the center. Many nurserymen prefer to suspend the ball of grafting thread from a wire to be unwound as it is used, we prefer to keep the grafting thread in *warm water* while it is being used, as described below. This can be used either way.

To Keep Grafting Thread in Good Condition While Using

Put a ball of waxed grafting thread into a quart cup or pan (a tomato can will do), fill it half full of water and arrange over a lighted lamp or small oil stove to *keep the water warm*, go ahead.

Grafting Wax for Bench Use, and How to Wax Your Thread

One part (by weight) Tallow; two parts (by weight) pure Beeswax; four parts (by weight) Rosin. Put all in an open kettle and melt down. When boiling, stir thoroughly, throw in balls of thread *loosely wound.* When the balls sink to the bottom of kettle, the wax has gone through and they are ready to come out, when cool, are ready for use. It will require two to four minutes for balls to sink.

Steel Box Straps

One inch wide, nine inches long, thin soft steel, strong enough to hold the heaviest box. You can drive an ordinary nail through it without punching. About 2800 pieces in 100 pounds.

Less than 50 pounds, price per pound ..... $ 0 06
50 pound boxes, price per box 3 00
100 pound boxes, price per box 5 50

Box Lining Paper

Helps keep out frost and heat, protects contents of box from drying winds. It is water proof, by this we mean that it will resist a good deal of moisture, but there is a limit.

This paper is put up in rolls 30, 36 and 40 inches wide, about 100 pounds in a roll. Ten lineal feet weigh one pound, or one roll will line twenty-seven full size cases. We call it a good paper. You can buy paper for less money, but we think you will find this cheaper in the end.

Price, per pound (cannot break rolls) ..... $ 0 04½

Cordage, Twines, Etc.

FLAX SAIL TWINE for sewing burlap put up in skeins,

Per pound ..... $ 0 25

TEN-PLY TUBE CORD (breaking strength 127 pounds), for light express bales, on reels of about 45 pounds each.

Per pound ..... $ 0 09

We cannot sell less than a reel.

TWO-PLY SISAL CORD (breaking strength 170 pounds) for heavy express bales, on reels of about 45 pounds each.

Per pound ..... $ 0 11

We cannot sell less than a reel.

FOUR-PLY WOOL TWINE for tying trees in bundles, put up in balls weighing about one pound each, packed about 130 lbs. in a bale.

In bale lots, per pound ..... $ 0 07¾

In less than bale lots, per pound 08½

TARRED SISAL YARN, (or Lath Cord) in coils. Good for tying trees for storage or cellars. About 100 pounds to coil.

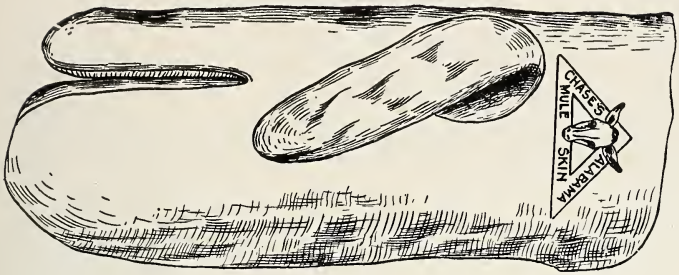
Price, per pound ..... $ 0 10½

Sphagnum Moss

Best quality, Bone Dry. Put up in wire bound bales of 50 to 75 lbs. each. When taken from cars each bale was tagged showing actual weight. Several hundred bales have been stored in our dry lofts for about one year and they have "dried out" more than usual. Price, by "tagged" weight, per 100 pounds ..... $ 1 50

If ordered shipped in burlap, add 20 cents per bale.

Alabama Mule Skin Mittens



A leather mitten with separate sheath for forefinger, the other three fingers in one sheath. Made from Mule Skin, nearly as durable as Buck Skin, at one-fourth the cost.

Single pair by mail, postpaid ..... $ 0 40
Per dozen, freight or express 3 50

Burlap (new)

40 inches wide, per yard ..... $ 0 05½
Full piece, about 200 yards, per yard 05

Scrap Burlap

"Second Hand", in lengths selected for Nursery use, running from 1 to 5 yards each.

Price, full bale, about 400 pounds, per pound ..... $ 0 03
" half bale, " 200 " " 03½
" quarter bale, " 100 " " 04

Needles for Sewing Burlap

5 inch, extra quality, per dozen ..... $ 0 35
5 inch, common, per dozen 20

Raffia

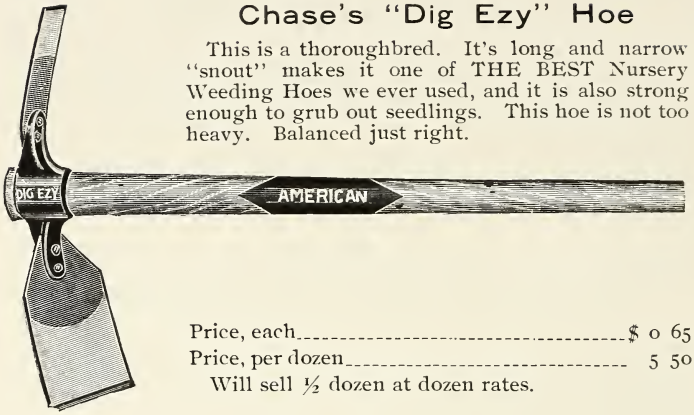
We use the best Raffia we can buy regardless of its cost, because for nurserymen's use the best is most economical. Prices:

1 pound (by mail postpaid) ..... $ 0 30
10 to 50 pounds, per pound, f. o. b. Huntsville 12½
100 pounds, per pound, f. o. b. Huntsville 11
Bale, about 220 pounds, f. o. b. Huntsville 09½

If wanted, we can supply ordinary Raffia as follows:

10 to 100 pounds, per pound f. o. b. Huntsville 08
Bale, about 220 pounds, per pound, f. o. b. Huntsville 07½

Chase's "Dig Ezy" Hoe



This is a thoroughbred. It's long and narrow "snout" makes it one of THE BEST Nursery Weeding Hoes we ever used, and it is also strong enough to grub out seedlings. This hoe is not too heavy. Balanced just right.

Price, each ..... $ 0 65
Price, per dozen 5 50
Will sell ½ dozen at dozen rates.

Labels

Iron Wired, 3½ inches, plain, 1000 to package.

Per thousand, by freight or express ..... $ 0 75
Per thousand, in 5000 lots 70
Per thousand, in 10000 lots 65
Per thousand, postpaid 1 40

Copper Wired, size same as above, add 15c. per thousand.

Ames Nursery Spade

D handle, double strapped full length of handle, tapered nursery spade, size of blade, 12¾x7½x5½; weight 9 pounds.

Price, each ..... $ 1 50
Price per dozen 17 50

SPADE HANDLES—For above spade.

These handles are bent to fit, and riveted.

Price, each ..... $ 0 25
Price, per dozen 3 00

Directions for Fumigating Nursery Stock With Hydrocyanic Acid Gas.

The necessary equipment consists of an air tight chamber (box or house) a glazed earthenware vessel, a glass measure graduated to ounces (a plain tumbler, mark the sides with a file) and a set of accurate scales. The necessary chemicals are Cyanide of Potash (98 per cent.) and Sulphuric Acid (specific gravity 1.83.) Care should be taken to secure the 98 per cent. Cyanide otherwise an insufficient amount of gas would be generated and the fumigation prove ineffective. "(Commercial" Cyanide contains an average of 26 45 per cent. Cyanide of Potash.) Cyanide of Potash must be kept in an air tight package and so packed will keep indefinitely, it is a deadly poison and should not be left where it will fall into the hands of children or careless persons and should never be handled by a person having open sores, cuts or bruises upon his hands. The gas is colorless and if inhaled in quantity is fatal, smaller amounts induce headache or dizziness.

The best commercial grade of Sulphuric Acid should be procured. This acid should be kept in a glass or earthenware vessel tightly stopped with a glass or lead stopper.

The chief requisite for a fumigation house is that it should be air tight or gas proof.

The standard formula for fumigating each 100 cubic feet of space contained in the fumigating house is as follows:

1 oz. Cyanide of Potash (98 per cent.) 2 fluid oz. Sulphuric Acid. 4 fluid oz. of Water.

The glazed earthenware vessel should be somewhat larger than is necessary to hold the chemicals, a one or two gallon jar is perhaps the best container.

The trees, as dug and brought from the field should be placed in the fumigating house, care being taken to see that they are free from any considerable quantities of mud or dirt, the trees should not be fumigated when they are wet as it has been shown that in this condition they are likely to be injured by the gas. When the compartment is full of stock, close all openings except the door, place the jar on the floor near the middle of the room, pour in the required amount of water and then slowly pour in the acid. The Cyanide previously weighed and enclosed in a tight paper bag is now dropped into the jar and the operator leaves *immediately* and closes the door *tight*. The steps in this operation SHOULD NEVER BE VARIED. If water is poured into the acid a violent action takes place and may be the cause of injury to the operator. Enclosing the Cyanide in a paper bag makes it convenient and safe to handle and retards the generation of the gas for a moment after being dropped, thus allowing time to leave the room and close the door securely.

Keep the room closed for forty minutes, at the end of which time the door and window should be thrown open, care being taken to avoid the outward rush of gas. After fifteen minutes of airing the room may be safely entered and the stock removed, being now ready for packing or heeling in. After fumigating the contents of the jar should be buried.

Georgia State Board of Entomology advises Nurserymen to use Merck & Co.'s Cyanide *when in original sealed packages*. See bulletin No. 15, pages 20–23.

Chemicals

Cyanide of Potash, Merck & Co.'s (98 per cent.) in original sealed tin packages

1 pound cans	$0.38
5 pound cans	1.75
10 pound cans	3.30

Cyanide of Potash is excluded from the mails, but can be shipped by Express or Freight.

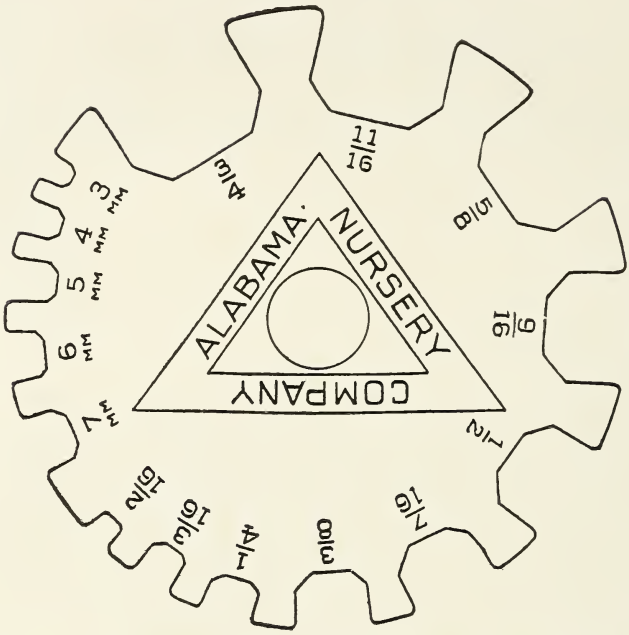
Sulphuric Acid (Specific Gravity, 1.83) large glass stopped bottles, securely packed in cases ready for shipment.

10 pound bottle	$1.10
15 pound bottle	1.40

Sulphuric Acid cannot be shipped by Express but can be shipped by Freight.

Buy chemicals of your local druggist if you can secure Merck's Cyanide in UNBROKEN original packages, and Sulphuric Acid that has been kept in a GLASS STOPPED bottle.

Tree Gauge



Price, postpaid, any quantity, each 50 cents

Designed by Herbert Chase. Made of heavy cold rolled steel, nickel plated. Both sides marked alike, always right side up. Guaranteed accurate to within one hundredth of an inch. Indestructible, easy to read. This is its third season and here are a few expressions from well known nurserymen regarding it.

MONROE, MICH., Dec. 5, 1907—During the past season we purchased a dozen of your tree gauges and found them satisfactory. They are accurate and practical. We could suggest no improvement.

I. E. ILGENFRITZ' SONS CO.

WINCHESTER, TENN., Dec. 4, 1907—Your new tree gauge is accurate and practical; I could not suggest an improvement—J. C. HALE.

SALEM, ORE., Dec. 3, 1907—We find your tree gauge accurate and practical. We could not suggest an improvement. It seems to be about as convenient as it is possible to make a tree gauge.

OREGON NURSERY CO.

POWELL, TENN., Dec. 2, 1907—Your tree gauge is accurate and practical; it is the best we have ever seen—TREEVILLE NURSERY CO.

Tree Counter

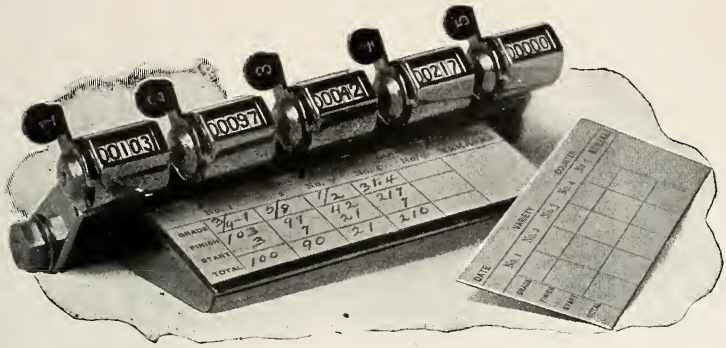


ILLUSTRATION ONE-THIRD ACTUAL SIZE

Four dial machine with 1000 record cards, delivered ..... $ 18 00
Five dial machine with 1000 record cards, delivered 22 00

EXTRA RECORD CARDS

Correct size, printed like cut, per 500 postpaid ..... $ 0 65
per 1000 postpaid 1 10

The only method of taking an ACCURATE count BY GRADE of EVERY TREE at ONE OPERATION. Press the button which indicates the grade to which the tree belongs and dials show the quantity of each.

Designed by Robert Chase.

WHAT THEY SAY OF IT

SALEM, ORE., May 4th, 1907—The tree counters (two machines) bought from you last year did not get out of order, they were very satisfactory in every way, they are a great help. We think them a improvement over the the old style. OREGON NURSERY CO.

CHARLES CITY, IA., May 15th, 1907—We received one of your new style counters last fall, used it in our fall and winter counting and are glad to report that we found the machine entirely satisfactory. It is far ahead of anything we have ever seen for this purpose.
SHERMAN NURSERY CO.

GLEN ST. MARY, FLA., June 1st, 1908—The new counter (10 dials $42.00) has just come in. It looks all right, works all right and it will do the work we want it to do. Sincerely yours,
(Signed) GLEN ST. MARY NURSERIES,
H. Harold Hume, V. P. & Treas.

A dozen years ago they bought one and liked it well enough to buy another. June 25th they write like this:—You will remember we have used one of your old style counter 10 or 12 yrs. We find the new dials very much more satisfactory in every way. It is the best machine of the kind we know of and we cannot well get along without it.
H. HAROLD, HUME, V. P. & Treas.

OFFICE SUPPLIES

Order Books

Your name and address printed, 100 orders to book, best quality heavy glazed paper, latest form, (sample sheet free for the asking.) Not less than 500.

Per 500, 5 books	$ 1 75
Per 1000, 10 books	2 50

Postage extra, 5 cents per book.

☞ Always give plain copy of firm name and address so that no mistake in printing will occur.

Delivery Books

Bound in paper cover, ruled showing name of customer, P. O. Address, amount of order, how settled, etc., printed in copying ink.

For 24 accounts, per dozen, postpaid	$ 0 50
